### Storage Information

Whether you are caught in between completion dates, renting your property, undertaking building works or travelling overseas, Big Red Removals and Storage will be able to keep your items safe and sound.

We will collect, store and deliver your property contents; safely and securely.

We offer two different industry standard containers. Wooden storage containers which hold approx. 250 cubic feet and, 20ft metal containers which hold approx 1100 cubic feet. We have included a helpful table below for you to calculate your storage sizes and work out costs. Both of these containers are made to an ISO standard and are consistent internationally.

A full inventory of the contents of each container can be made. This makes it easier when, if required, you wish to extract single items from the containers whilst in store. You will find our rates compare favourably to self storage centres, but at your request we can deliver to a self storage centre of your choice.

Our purpose built warehouse is clean, dry and secure and is equipped with extensive CCTV cover and 24 hour onsite security.

### Storage FAQs

#### How so I book storage?

Simply call or email the office and we will work out your storage requirements, we will need debit or credit card details and a scan of either a passport or driving licence.

#### How will I know how much storage space I will need?

We will email over a handy cubic volume calculator for you to fill in. This is a simple form in word document format. Fill it in with amount of each large item and a best guestimate total of the boxes you will use, it will then generate a total cubic volume to be moved and stored. We will then be able to give you price on the removal and storage costs.

#### What do the containers look like?

Our storage containers are easy to load and unload and transport, some of our vehicles have been covered to take the containers full, and so they can be loaded and unloaded outside your property.

## REMOVALS & STORAGE

TAKING THE STRESS OUT OF MOVING

Removals • Packing • Storage • Domestic • Commercial • Fine Art • Transport • Free Quotes • Hourly Rates • Fully Insured

### How many cubic feet are there in a container?

The wooden containers are approximately 250 cubic feet. They are 8 feet high and 5 feet wide and 7 feet deep. The metal containers are 20ft long, 8 foot high and 8 foot deep, though these are external dimensions; they have approx 1100 cubic feet of capacity. Please see the pictures to get a guide of what you can fit into each container.

### What notice do I need to give to get my contents delivered?

We will need 1 calendar week to book the containers; however delivery does depend on availability, so please allow as much time as possible.

### Can I gain access to my belongings whilst they are in storage?

Yes you can, but we will need 1 calendar weeks notice beforehand, so that we can retrieve your container or containers and get them ready for your inspection and put your container back in the warehouse after the inspection has been completed. We charge £17+vat per container for this service, plus the hourly rate for any crew that you require. The storage is not generally set up for self access, which is why the weekly rates are much lower than self access companies.

### How do I pay for my storage?

Payment is taken at least 1 month in advance and can be made by BACs, credit card, debit card or standing order. If you come out of storage before the month end we will credit you the difference for the days you have already paid.

### Can I store anything in your containers?

No. We need to avoid storing potentially hazardous goods such as acids and any highly flammable products. Any organic material, such as food is also not allowed. You can refer to our terms and conditions via this link for a more detailed list of items which cannot be stored.

### Are my belongings insured?

Yes. Our standard liability is included to a maximum value of £25,000. If you would like us to accept liability for an amount over £25,000, our price(s) may be increased (as separately advised to you) to reflect the higher level of liability. Please ask for details. Our liability is a contractual agreement between you and us.

### Can I use my own boxes?

Yes you can, but as you can see boxes will be stacked up to 5 high, this means that the boxes will need to strong double walled boxes.

### Can you receive items on my behalf?

Yes we can, by prior arrangement. There will be a charge for this.
